ECO+ CERAMIC WINDOW TINT

LASTING PROTECTION

Our ZERO ceramic window film is the darkest legal tint available, giving you maximum privacy and style. It's not just about looks; this film also reduces harsh glare, making your drive safer and more comfortable.

For vehicles that already have privacy glass, we will apply ZERO ceramic window film to the front windows. Additionally, a separate clear film will be applied to all rear windows to reduce 99% of UV rays.

In the event of an accident, the film helps hold shattered glass together, adding an extra layer of safety. For your peace of mind, it's backed by a lifetime warranty. ZERO ceramic film is a smart choice for the planet. It's non-metalized, making it easier to recycle, and we reduce waste by laser-cutting each piece to perfectly fit your vehicle. By blocking a lot of the sun's heat, the film keeps your car cooler and reduces the strain on your air conditioning, saving you energy.

57%

Glare blocked for safer driving.

99%

UV rays blocked.

54%

Solar heat blocked.

35%

Of visible light shines through.

100%

Dye-free and metal-free.

87%

Of infrared heat rejected.

ECO+ INTERIOR PROTECTION

By choosing ECO+ surface care products, you're picking a better, more sustainable way to protect your car's interior. Our products are designed to keep your vehicle's surfaces looking new and provide a durable barrier against whatever life throws at it.

A single layer of our concentrated, water-based treatment is all it takes. It's much more effective and eco-friendly than household aerosol sprays, helping to reduce waste and protect our planet. This coating creates a powerful barrier against UV damage and staining. It protects all your interior surfaces—fabric, carpet, vinyl, and leather—from fading and discoloration, as well as spills and stains.

**PROTECT YOUR
PAINT AGAINST
DAMAGED CAUSED BY:**

- FOOD STAINS
- DRINK STAINS
- DISCOLOURATION
- DEHYDRATION
- MAKEUP
- SUNSCREEN
- MOULD & MILDEW GROWTH

ECO+ PAINT COAT

PROTECTS YOUR PAINT AGAINST DAMAGED CAUSED BY :

- ROAD GRIME
- FALLEN LEAVES
- BORE WATER
- BUG SPLATTER
- BIRD & BAT DROPPINGS
- SUNSCREEN
- TREE SAP
- RAIL DUST
- OXIDISATION

LASTING PROTECTION

This car coating uses graphene to give your vehicle's exterior a powerful, durable shield. It's an environmentally friendly way to protect your paint, making it extremely hard and resistant to damage.

The coating's special formula creates a super slick, non-stick surface. This means water beads up and rolls right off, taking dirt, dust, and grime with it. Your car stays cleaner for longer and is much easier to wash.

BENEFITS:

PERMANENT PROTECTION

One application is all you need & you'll never have to wax or polish your car again.

MAINTAINS VALUE

Helps keep your paint looking new and protects resale value.

LIFETIME WARRANTY

It's backed by a nationwide lifetime warranty for peace of mind.

PREVENTS DAMAGE

This coating helps protect your car's clear coat from peeling and flaking.

ECO+ PAINT, TYRE, WHEEL, GLASS PROTECTION

WHEEL PROTECTION

Made from a powerful blend of Silicon Carbide (SiC) and Silicon Dioxide (SiO₂), Truseal Wheel Protection creates an extremely durable shield for your wheels.

It permanently locks in that factory shine while protecting against future UV damage and fading. The coating's non-stick properties make cleaning a breeze; soapy water is often all you need to wash away brake dust, road grime, and other contaminants.

This also helps prevent the pitting and damage to your alloy wheels that brake dust can cause, so you can stop using harsh cleaning chemicals.

TYRE PROTECTION

Using advanced polymer technology, our Tyre Protection adds a durable deep satin finish, enables simple cleaning with soapy water, is silicon free and offers a flexible protective barrier against harmful UV rays.

GLASS PROTECTION

Increase visibility on your windscreen using advanced ceramic formulation, creating a highly durable protective layer between glass and the elements. After application your windscreen will be protected from smearing ensuring clear vision at all times.

SCRATCH & DENT ASSIST

Drive with peace of mind knowing that unforeseen minor cosmetic scratches, dents and scuffs caused by everyday travels can now be repaired at your convenience.

Scratch & Dent Assist is Australia's fastest growing, most cost-effective and convenient solution for repairing minor scrapes, scratches and dents on motor vehicles.

We employ industry qualified technicians and use the latest in Small Accident Repair Technology so you can rest assured in the knowledge that your vehicle is in excellent hands.

Keeping your car looking as good as new, inside and out, is easy with Scratch and Dent Assist – and the benefits and savings are significant.
